SUMMARY

A highly motivated and detail-oriented Information Technology graduate with a strong foundation in Python programming, data structures, and problem-solving. Proficient in developing efficient, scalable applications and familiar with frameworks such as Django/Flask. Passionate about building backend systems, AI/ML, and data-driven solutions. Eager to apply technical skills and continuously learn emerging technologies in a dynamic development environment.

EDUCATION

Bachelor of Technology in Information Technology

Dr M.G.R Educational and Research Institute – CGPA : 8.2

Oct 2022 - May 2026

Chennai, Tamil Nadu

Diploma in Data Science

IIT Madras (Online Diploma Program)

May 2026 - Present

Chennai, Tamil Nadu

Grade 12, Computer Science

Fatima Matriculation Higher Secondary School – Percentage : 80.33%

Aug 2020 - May 2022

Chennai, Tamil Nadu

PROJECTS

Enterprise RAG-Based Question Answering System | Python, FastAPI, Pinecone, LangChain, Llama 3.

- Developed a scalable RAG-based Question Answering System using FastAPI, Pinecone, Llama 3.
- Automated document processing pipeline including PDF extraction, chunking, embedding creation, and semantic indexing for efficient knowledge retrieval.
- Integrated vector search with LLM-powered answer generation and exposed functionality through REST APIs for real-time enterprise document querying.

Skin Cancer Detection and Classification System Using CNN-GRU | Python, TensorFlow, Keras, OpenCV

- Designed and developed a deep learning-based Skin Cancer Detection System using CNN-GRU architecture for automated classification of skin lesion images.
- Implemented image preprocessing pipeline including image resizing, normalization, augmentation, and feature extraction to improve model performance and robustness.
- Integrated CNN for spatial feature extraction and GRU for sequential feature learning, achieving accurate classification of benign and malignant skin lesions.

SKILLS

Languages | Python, JavaScript, SQL

Frameworks | React, FastAPI, Django

Development Tools/Concepts | Git, GitHub, Jupyter Notebook, PyCharm

Data Analysis & AI/ML | Pandas, NumPy, Scikit-learn, Matplotlib, Power BI, Tableau, TensorFlow

Databases | MySQL, MongoDB

Other Skills | Graphic Design, Content / Creative Writing

ACCOMPLISHMENTS

- Department Contribution Award** – Recognized for outstanding contribution and commitment to departmental initiatives.
- Appreciation Award (Editorial Team, Tech Voice)** – Acknowledged for active involvement and creative input as part of the editorial team for the department newsletter.

CERTIFICATIONS

- Advanced R for Data Analytics** – Gained hands-on experience in Advanced R for Data Analytics, performing statistical analysis, data visualization, and predictive modeling using industry-standard techniques.
- Python for Data Science** – Gained hands-on experience in Python programming, data manipulation, and visualization for data-driven problem-solving.
